

# TIPS Takes Off!

After 5 years of training Arkansas's early childhood educators, we're still making strides. In fact, with the introduction of our new mobile application, we're poised to make a bigger impact than ever next year.

Check out our year!

## A record smashing number of trainings, now with more convenient times & locations closer to home

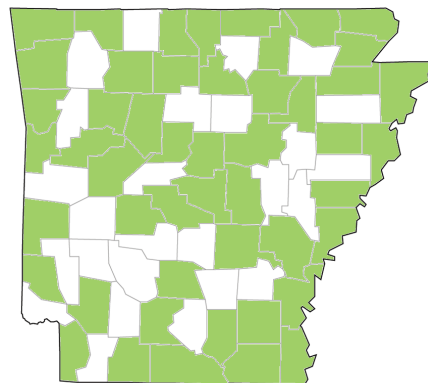

184 trainings

29 Saturday trainings

49 counties

## High-quality professional development for teachers

4,995 continuing education credit hours earned through training

Content knowledge scores up 21% post-training

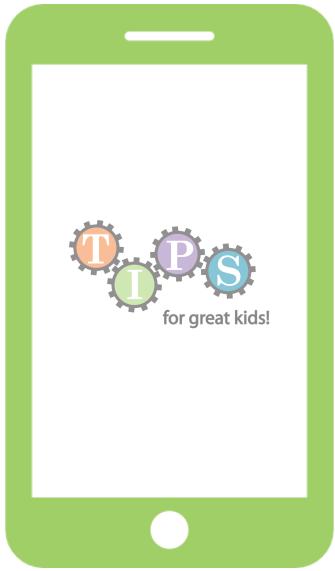

4.9 out of 5.0 participant satisfaction rating

"I learned a lot of valuable information and am excited to be able to help parents when they need help."

for great kids!

# Sharing TIPS is easier than ever!

## Introducing the TIPS mobile app

This year we launched the TIPS mobile application! Every card, every topic, now in your pocket and at your fingertips.

Search, learn, and share with parents, all from the app. What a great way to keep the conversation rolling!

Ready to get your hands on it? Sign up today for our redesigned basic training at [TIPsforgreatkids.com/trainings](https://TIPsforgreatkids.com/trainings), and get access to this incredible resource!

## Need help starting the conversation?

We know starting conversations about child development and parenting skills can be tough.

Maybe you've been through TIPS training, but communicating with parents isn't going as well as you hoped. Don't worry, we're here to help!

In Spring 2018, we will launch a new 1.5 hour training focused exclusively on teacher-parent conversations. Boost your communication skills with our practical, interactive workshop!

## New year, new content

We're committed to bringing you helpful, research-based information. As science advances, so do we!

We're combing through all our resources to ensure the recommendations stay on the cutting edge of childhood development!
